

Leading Manufacturer of
CUSTOMIZED
BRASS COMPONENTS

About Us

Always Dedicated To Quality Manufacturing.

Over the years we have emerged as one of the leading manufacturer of brass turned components & Ptings. By the years of experience and broad vision towards the total quality in every aspect, company has earned its own name in the Brass Industries, worldwide. With state of the art machineries, skilled labour, sufficient measuring instruments and well experienced management, we always serve better quality at best prices.

We are committed in our efforts to give you total satisfaction in terms of product and services. Over 20+ Years we have continuously upgrade our systems and technology to provide our customers with best quality at competitive rates. We give our excellent technical customer support through out the manufacturing process to ensure very best possible products.

**Skilled & Experienced
Team Members**

**An ISO 9001:2015
Certified Company**

**Modern & Innovative
Manufacturing Unit**

**Competitive Price &
On Time Delivery**

Ultra Modern & Innovative Manufacturing Unit

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance Brass Components. The sophisticated production facilities enable us to execute orders of various sizes and specifications. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery.

What Makes Us Different From Others. **Your Satisfaction Is Our Motivation.**

We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning.

Our Mission

To continuously strengthen and upgrade our manufacturing processes, quality systems and people competencies by training & education and providing a safe work place.

Our Vision

Our vision is to provide high quality, value added Precision & fastening solutions and services that will keep our client ahead of competition and in forefront of technology.

Our Commitment

To understand and exceed the expectations of our valued customers, while delivering high quality products with competitive price to their most demanding requirements.

Quality Assurance

Having experts for manufacturing. Your total satisfaction guaranteed

Superior quality is the primary concern at Ganesh Brass Industries. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods. Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch.

We are an ISO 9001:2015 Certified Company whose very essence of existence is Quality. Our company has always been a leader in quality and technology.

Quality Control

Our quality control department ensures that each product is manufactured with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control

Design Software

At Ganesh Brass Industries, we create drawings by using the AutoCAD Software as per customer's specifications and it will be sent to production department. We are also able to produce any kind of customized brass components.

Inspection

At Ganesh Brass Industries, we create drawings by using the AutoCAD Software as per customer's specifications and it will be sent to production department. We are also able to produce any kind of customized brass components.

Packing & Dispatch

At Ganesh Brass Industries, we create drawings by using the AutoCAD Software as per customer's specifications and it will be sent to production department. We are also able to produce any kind of customized brass components.

Quality Equipments

Instruments are heartbeats of industry. To assure good quality of products, quality instruments are required. Company has invested a good amount to have all type of measuring equipments including all instruments and gauges.

Brass Electrical Parts

We are manufacturing all kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts.

Brass Fasteners

We provide High-Quality Brass Fasteners with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Brass Fasteners are easily removable without any damages the joining components. They are made from brass, mild steel, stainless steel and other material composition. Brass Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more.

Brass Fittings

Brass is widely used in manufacturing brass fittings, plumbing fittings, bare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility. The main key feature of brass fittings is its excellent corrosive resistance, and also its plating, joining, polishing and finishing characteristics. Each brass fitting design use for specific application and purpose.

Brass Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

Brass Auto Parts

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms.

Brass Sanitary Parts

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Jointer.

Brass Forging Parts

We are specialized in Manufacturing of Brass Forging Parts. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Parts as per customer's designs and requirements.

Brass Turned Parts

We are engaged in offering a wide range of Brass Turned Parts to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and pne grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry. The range of Brass Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry.

Brass Precision Parts

We are offering the high-quality collection of Brass Precision Components to our valuable customers. Designed and developed from high-grade materials, the products offered by us are used in the Connectors, Electrical & Electronics, Instrumentation, Telecommunication, Automotive, Medical & Surgical and Industrial Assemblies. The offered products are available with us at most economical prices within the committed span of time.

Brass Customized Parts

Brass Customized Parts are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. Our customized components are precisely designed and engineered by our skilled professionals, who employ cutting-edge techniques and high-quality raw materials. The range of these metal components are manufactured as per industry standards and norms. We always provide quality-approved components to our respected clients.

CNC & VMC Components

CNC components are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. The range of CNC & VMC components are manufactured as per industry standards and norms. We always provide quality-approved CNC & VMC components to our respected clients. We ensure that our entire range of CNC & VMC components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

Brass Anchors

We provide a wide range of Brass Anchors, which is, utilize in multiple industrial applications for our valuable customer. We provide these in standard as well as customized dimensions, depending upon the customer's needs and requirements. It is temperature resistant, simple, and easy to apply. It has inside conical shape, which ensures equal expansion of segments while screwing. It is very useful in building material, concrete, brick, and natural stone and in wood.

Brass Earthing Accessories

Earthing System is very essential to be properly designed & installed to safeguard both lives & the equipment. Sometimes it happens that though the earthing system is installed, current leakage is felt & short circuit may happen. To avoid this a correct Earthing System embracing correct earthing accessories is very important to take care of Corrosion resistance, conductivity and mechanical strength are essential considerations in earthing accessory design to ensure an earthing system remains operative for many years.

Brass Sensor Parts

We are leading manufacturer of Sensor Parts, offering a wide range of Sensor Metal Parts including Frequency Sensor Parts, Sensitivity Sensor Parts, Proximity Sensor Parts, Temperature Sensor Parts and Sensor Housing which are used in Automobiles, Electrical Equipment & Home Appliances. Sensors Parts are widely used for liquid level & distance measurements. Sensor Parts are made out of high-quality metal sourced from the trusted market sources. We are offering these Sensors Parts to our clients at market leading prices.

Copper & Bronze Parts

We manufacture and export a wide range of Copper & Bronze Parts including Copper & Bronze Machined Components, Copper & Bronze Turned Components, Copper & Bronze Forged Components, Copper & Bronze Casting Components, Copper & Bronze Stamping Components, Copper & Bronze Fasteners and more. Copper Can be machined, stamped, forged, cold-headed for manufacturing any type of components. Copper & Bronze Components are widely used in electrical wiring, electronics, power generation, mechanical, transmission, telecommunication, automotive, and automobile applications.
